

Dear Friend,

I've spent 47 years ministering in almost every environment imaginable from street evangelism, to underground churches, smuggling Bibles, crusades, and yes... pastoring.

As a pastor, a father, and a friend, I understand the deep compassion we feel for those we love. We want them to have the very best life possible; yet we watch them struggle through daily life, continually challenged, and often overwhelmed. Like me, your heart breaks!

As a pastor and counselor, I saw that until people accepted that God the Father is exactly as Jesus presented Him, they'll never be fully convinced of how good He is; therefore, they'll never be stable and consistent in their faith! When I operated a health clinic, I quickly saw that it was nearly impossible to get those with chronic diseases well if they had a negative view of God. It was then that I began working on their view of God in tandem with their medical treatments!

July 19-21 is our annual WorldChanger Weekend. This is a concentrated investment in people's lives. This year the topic is **10 Words That Will Change Everything You Know about God: Seeing God as He Really Is.** My Hebrew teacher, Chaim Bentorah, and I will take keywords that have been mistranslated by religion to misrepresent God with the sole purpose of holding believers captive to religious bondage and control. Together, we'll present them in their true translation and application. We'll also take

some incredibly positive words about God that have been both minimized to reduce our understanding of love, while others have twisted them to turn love into a license to sin.

Our goal for these meetings is to connect believers with God in a way that makes them emotionally stable, fully trusting of God, and desirous to live godly lives. In other words, we want exactly what Jesus died to give us: the abundant life!

This entire weekend will be streamed **LIVE free of charge**. I invite you to use this event in any way that will benefit your ministry and the people you serve.
